

Axial® UTB18 Capra 4WS | 1:18 4WD RTR  AXI-1750

KEY FEATURES

New look and an all-new level of capability. In addition to aggressive Mickey Thompson tires and new graphics, the latest version of the popular UTB18 has the ultimate advantage – 4-wheel steering. Small enough for indoor use and still large enough to conquer any outdoor terrain, the UTB18 offers the convenience of a mini without sacrificing the durability or performance owners of “standard” scale vehicles are accustomed to. Usable indoors or out, it’s the **best of both worlds**.

What’s New:

- 4-wheel steering – vastly improved maneuverability
- New King Shocks and Mikey Thompson graphics
- Mickey Thompson Baja Pro X tires and Holcomb bead lock wheels
- Spektrum SLT3 transmitter with 5-channel receiver
- Spektrum 640mAh LiPo G2 battery

KEY BENEFITS

- Truly ready-to-run with everything included
- Popular and proven UTB18 Capra platform
- 4-wheel steering
- Great value and equally suited as new or experienced crawlers
